Exercises Conducted by City Superintendent Sweeney and Pront fessor Blanton.

He located her in drilling at the hands of Superintendent of Schools, W. H. Sweeney, and Professor Stanley G. Blanton, When Captain Conrad Johnson, principal of the High School ,who is now on the border with the troops, returns, he will assume charge of the company. During the coming season the cadet soldiers will be drilled twice weekly for a period of an hour and a quarter on Monday and Thursday afternoons.

The total enrollment of scholars in the schools now numbers very nearly 1,900, The number in the High School is greater than ever before and shows an increase of fifty over last year. The total of scholars in that department is now 310. Mr. Sweeney reports that the increased enrollment in practically all the schools has resulted in overcrowding in all classes from the first grade up. One of the special features of the work this year is the increased activity in the Commercial department of the High School in which there are many scholars who have completed their second year in the High School.

Under Professor Nolley, the football team of the High School is being rapidly whipped into shape and the indications are that it will be one dogs were harbored and shoot all of the strongest Alexandria has yet
